

Using the **Searching the Internet** reference, find viable answers to the questions found on the **results** worksheet.

Try a combination of strategies and search engines to find the information.

Once you find the answer, copy the URL from the search engine that lists the answer among the first three options on the search results page.

The URL below is an example.

<http://www.google.com/search?q=casualties+and+civil+and+war&sourceid=mozilla-search&start=0&start=0&ie=utf-8&oe=utf-8&client=firefox-a&rls=org.mozilla:en-US:official>

Complete the following table using advanced searching techniques.

Question	Answer	Source (Company, Institution, etc)	Date (when was the info posted?)	Search Strategy (plain text, wild card, etc.)	Search String Used (copy and paste URL below)
